

April 20,

Dear June:

Sunday night again (same old feeling) Shirley just left. I was sure glad to have him up here. I think he had a good time too. We didn't do anything, but set around and talk but it was fun.

I guess you are wondering about the two letters so close together. Well, to tell you the truth I have a very special reason for writing this one. The 111th Obs. Sq. you know, my old outfit, well, . . . they are giving a dance at San Jacinto Inn on the 3rd of May. That is a Saturday nite. Now

I wonder if you could possibly get off that night. If you could I sure would like to have you go with me. Shirley and Betty, Waley, and as many of the gang as we can get, are going. We'll have a swell time - - we will if you can go. Write and tell me if you can and try hard. I don't know whether Betty is going with Waley and "Lard", I hope she goes with "Lard". Anyway if you want to know more about it you will probably be able to find out from her in a few days (after Lard gives her the low down). So kiddo if you can and I hope you can its a date for May 3rd.

I have a program of quizzes scheduled for this week and next. I'm still doing

scuse change in colors.

O.K. I think, but it is sure getting hard to stay and work. It won't be long now though 49 more days to be right on the money.

How did you like the picnic Thursday site; Shirley said that it was a nice affair.

Well, that's all for now. Try your best and write and tell me.

Love
Billy
