November 10,

Hello beautiful:

I just read your letter, very nice indeed you can't know how much I enjoy reading your letters. I love the way you talk about clippings that ^{are} supposed to be enclosed too. I know what it was though: I received a letter from Ben yesterday and he told me about it.

I heard from Lard yesterday too. He will soon be leaving for primary school. We may even get a little furlough before he has to report to school.

I guess you are still having fun in dear ole Houston. We enjoy ourselves here too. We have a lot of fun out at the field in school. I went to a dance last Saturday nite at the officers club, but I don't seem to get much fun out of dancing any more.

FORT MEYERS,

Well, tomorrow being Armistice Day, I guess the town will turn out for a parade. I don't know what we will do here I guess keep on working as usual.

You should see me in my new coat of tan why I'm as brown as a glass of strong tea. It seems funny to be swimming and running around in a bathing suit in November. By the way has it started getting cold yet in Big 20? I guess you are getting ready for a white Christmas huh?

Otto, is a boy from St Louis, Mo. that I went thru Navigation School with.

I guess I've about covered every thing. I'm sorry nothing ever happens for me to write about. So write again soon, please.

Love
Billy
