November 2,

Hello Little one:

I say oh girl it is really nice down here in Florida. Down here with all the upper crust. It is really a wonderful place to be stationed: ~~here~~. We go swimming on warm sunny beaches, the hotel at which we stay has a swimming pool and everything. We have done a lot of traveling overland (see my cards) but I haven't done any flying as yet. Oh we have a beautiful bomber I can't wait to take off.

I hope I have your address right: I lost my address book again. Pop is sending me another list.

There isn't a whole lot to talk about now except that I'm having a good time. In fact I'm sending home some pictures to prove it.

I get to see all the shows in fact that's about all we have to do at night.

How is every body at home? Tell them all hello for me. I guess the gang thinks I should write more but, well you know how it is. You sit down to write letters and you finish one or two and you want to quit.

So I guess that's about all. Write real quick and tell me about yourself.

Love
Billy
