

November 29,

Hi Sugar:

This is your favorite navigator writing again after a long wait to see if you wouldn't slip in an extra letter without having received one. I see it is hopeless though. I don't blame you though really.

I got a letter from my sister today and she tells me that you are taking piano lessons. Why didn't you let me in on it? I'm in favor of it, very much. I wish that I could do the same. Maybe I will some-day.

Received a letter from Shirley day before yesterday. He has arrived at his new post and has the instructor eating out of his hand already. He's going to be a great flyer. Pop says that he is trying to get more gas and if he doesn't he will have to move back to town. He also says that he is a civilian

for good. I guess he feels pretty bad but he shouldn't. We can do a lot of good at home.

I went to a wedding last nite. My room-mate, a pilot from Pennsylvania, was joined in holy wed-lock. So I'm minus one room-mate since the bride objected to living three in a room, can you imagine that? He got a ten day furlough so he started on a honey moon today.

I went to see "Gentleman Jim" today with Errol Flynn. It is good put it on your list.

Now see I've exhausted my supply of gals already. You have much more interesting things to talk about than I have.

I wish that you would get me a line on Ben and find out what is happening about his Coast Guard deal. I can't find out when he is supposed to leave.

Take care of yourself and write when you can.

Love -
Billy
