

June 22.

Dearest June:

Received your letter today, with picture and was I glad to get both. You look like a million too kid. All the boys in the barracks said that they understood now why I wanted to go back to Houston.

Got back from West Palm last night at mid-nite. We had a good time and took two rolls of pictures which I will send home. Hope you received my letter from there.

I have about a week to wait now then I will be on my way to heaven knows where. I will certainly need your prayers then. I hope to be back within a year on leave. The crew is eager to take off and so

am I as I've said before. We, as I say, don't know where they are sending us nor do we care. One place overseas will be as good as another and I would just as soon fight the Germans or the Japs.

We have the best Bomber in the world and we are going to help prove that it is the best.

I'm going to see Alan Ladd to-  
nite in "China." Saw Bombardier  
the other nite and thought it was  
"cooney."

I wish that you would make  
a wish on Venus for me some  
nite. Ask her to make me a  
good navigator, and I'll be thanking  
you.

Well, have fun, Honey and I'll  
write you again before I leave.  
- over.

Love and Kisses

Bill
