

THE AVON PARK BOMBING RANGE
AVON PARK, FLORIDA

June 25,

Honey:

It's a damp night out tonight. I had planned to shoot a few stars for practice but rain has been falling since sundown.

I'd rather talk to you any way. How are you doing now? Expected a letter today, but alas I had to do without. Did get one from Alvin, however. He is about to move back into the big city of Houston. Lucky boy.

Doesn't look like I'll be leaving the first. We are all set to go and will pull out on 24 hr. notice if we have to. I have taken care of last minute business so many times. In the mean time we still fly every day and go to P.L. and go to the show. Saw Judy Garland in Lily Mars' last night.

Lost quite a few friends when a bunch moved out awhile back. I don't know whether or not I ever told you about Chuck Kral. He was quite a guy and he and I had a lot of fun together before he left. I hated to see him go without me.

Looks like you were right about Alvin and Ruby.
How did you know anyway. Mom says that Pop
told her that Ruby wanted to get married and he
didn't so he guessed things would have to end.
Off the record, please. Pop said one time that
he was going to marry young so that he could
live to see his children grow. Either he has
changed his plans or it is not love.

War news looks good, home front news looks
bad. I believe the thing will be over one of these
sunny days. Hope so anyway.

I've got me a little cat named Sopey. He keeps
me company since a lot of the boys are gone.
I'm living in a whole room all by myself now.
Partridge and McKenna live next door.

Well, I guess that's all again. It doesn't
take long for me to run down in this place.
Write again soon, huh?

Love
Bell
