

September 8
England,

Dearest June:

Received your letter in two parts of Aug 24, two days ago. It was a sweet letter as yours usually are and I'm sorry that I've waited so long to answer it but as I told Mom I've moved. Yes, I've changed flights and crews and for the last two days I've been busy little girl I've been busy. I was sorry to leave Mick and the Boys but it was out of my hands and it was for my good.

Yes I like you in red my sweet and as you say when this thing is over I'll like color. Nothing would please me better than to see you all dressed up in red again. The little skirt

you wore the day you drove us to Ellington was quite alright too.

Oh yes! I saw "Mr. Big" before I left Avon Park. It was good Mick and I both like it very much. "Actoria In The North Atlantic" as I've told you before is also very good.

I like the title "Close to you" even though I haven't heard it. Close to you yes that sounds good.

I told Bess that if I had been home we would have bought that Model A. and we would have too. Some fun we could have in it. She was right in not getting just now though.

Received two letters from Lard and he is doing swell as usual.

I wish I could see him now. Had
some great times with Lard in the
ole days. He's a hot B.M. pilot now
and he's getting a crew together. I hope
he comes over here.

I'm sorry I have no other news. I'll
write again soon and I'll be waiting to
hear from my girl.

Love:

Bill
