

October 3,
England:

Dearest June:

Just a few more lines to let you know I'm still thinking of you, and by the way, I'm fine also. I haven't been doing too much lately and I've plenty of time to read and go to the picture shows. We have a theatre here on the base and in the nearby by town there are a few more. You know old Bill when there are pictures to be seen he is in his glory to be sure. I've even gone back and picked up an oldie like "Captain Blood" with Errol Flynn. With inactivity though there is also a lag in news to be written which makes my letter writing even harder.

A few nights ago I made an interesting observation: just after the sun went down I saw your star in the sky. It was about a year ago when I told you how to find Venus and now you are able to find it the same way, and you will be able always to see it first if you look because of all the heavenly bodies, except the moon, Venus appears as the brightest.

I hope you are getting along O.K. also and I hope you are keeping up with all the football games. I would be so glad if I could see just

one good game this season. Lay one like Picco vs. Aam, or Texas vs. A.M. or Davis vs. Titus. There is nothing like a good football game.

You know up until today I've had to lay off my old pipe because of a rotten cold that I've had for almost a week but this morning I tried a pipe full again with no ill effects. The pipe is one that my old pilot Chuck Enderton gave to me and it is a good one. Speaking of Chuck, I sure miss him & Mac Adams. I was on their crew for almost a complete year and I hated to see the crew broken. Of course I was glad to see them go home though!

I guess I've said all there is to say again, Sweet. Tell your Mom & Dad hello for me.

Love
Billy
