March 29.

Hi Butch:

Yesterday my instructor crawled out of the plane after we had made a few landings and asked me if I had any questions. I said, "no" and he said well take her around by yourself. Yes! It was then I experienced probably the greatest thrill in my life. Not even when Chuck gave the ole marauder the throttle on D day did I get the thrill that came to me yesterday when I, just lil ole me, flew the airplane all by myself. And if I went no farther in this course than today that ride yesterday is something they can't take from me.

Incidentally I soloed in the minimum time allowed (8 hours) which isn't extra good or anything like that but it does mean that my

progress thus far has been satisfactory.
Which makes me feel swell.

I guess Alvin has told you about
the week end in Yatesville. We had a
pretty good time. I wish you could have
come with him though. I'm missing you
more and more every day.

I've been doing my best to figure a
way to get to Houston kid and so far I'm still
running up to the stop in the case which is
weather. When weather is bad during the week,
we fly on week-ends and it would be my
luck to wire you that I would be in and have
everything ready then have it rain all week
and my week gone and you waiting at the
church. So, Honey I don't know. Maybe
in a few weeks when I have more howes
I might take a chance otherwise your coming
up here will be the only answer. I did so
want you to have the wedding where you wanted
and, well I wanted a lot of things to be better than

they are, but c'est la gooch.

I got a letter from Eddie: he is happily situated in his beloved California and is busy too, flying and going to ground school.

Low is getting along fine and we are all having a good time learning - we get terribly disgusted at times but they are short lived and usually it is all just work and fun. The time just flies by.

I guess I'll let you go now, keep up the mail service, love you all the more for that.

always,
Bill
