Dear June, Kathleen and Joan:

Went to see Lucy and Desi last night in "The Long Long Trailer"; it was a riot. I was reminded so many times of our first year together with those long trucks between air Bases and me sweating the Dodge out every mile. We did have fun though didn't we. I've often wondered which of our eight years means the most to you Sweetie. I would find it hard to pick the one I would like to live over again.

The fog is still with us. This place has been so for three days and night now and the fourth day is well under way and I still can't see the tops of the hills.

I have staff duty this Saturday from 1230 till 0830 Sunday. I'm supposed to take an instrument check Sunday afternoon. This week-end will offer very little rest that's for sure.

Still making plans to leave for Sandstrom on or about 14 ~~th~~ March. I'll be there for about 2 weeks.

I love you.

Billy
